

# HEADPHONE DISCO; WHAT IS IT?

Launched in the UK in 2007, Headphone Disco are the originators of the 'silent dance party' format and have been taking their show to colleges, schools, festivals and nightclubs around the world for the past 10+ years. Never been to a Headphone Disco before? Here's how it works..

1. Your guests arrive at your event and take a pair of our awesome wireless headphones.
2. Two DJs set up and spin two different styles of music side by side. One DJ might be spinning top 40 while the other is spinning the latest in hip hop. To the same dancefloor. At the same time!
3. Your guests select their DJ of choice using a toggle switch on our headphones and get busy on the dancefloor. Guests can switch backwards and forwards between each DJ during the course of the event
4. Now what have you got? One half of the dancefloor moving to one beat, while the other half gets down to a completely different soundtrack. Take the headphones off and you're looking at a mass of people moving to grooves that only they can hear! Although you WILL hear much cheering, hilarity and mis-heard lyrics being sung really badly!

Imagine a dancefloor that's got one half of the crowd singing along to Taylor Swift while the other half are doing The Wobble! Or one where half the crowd are raving to Diplo while the other half are throwing shapes to the YMCA. Bizarre, mind-blowing but most of all a huge amount of fun! And remember, as there's no amplified music, Headphone Disco is a practical entertainment solution too. Fancy staging a dance party in a sports field/ parking lot/anywhere else where there are noise restrictions? With Headphone Disco, you can!

## PACKAGES & PRICING

### THE CLASSIC

### THE CLASSIC REDUCED

### THE TAKEOVER

Type	We supply everything. Travel included in price.	Same deal as 'The Classic' but for smaller attendances	Our latest twist. Travel included in price.

## FAQ

### WHAT DO I NEED TO SUPPLY IN TERMS OF 'TECH'?

Practically nothing. Headphone Disco is a true 'turnkey' event meaning that beyond some power strips, a few lights for atmosphere and a couple of tables, you don't need to provide anything. We supply all the headphones, the DJ equipment and all other necessary items associated with staging the show. Our crew members set up the equipment, perform and then break it all down again at the end of the night.

### WHAT MUSIC WILL YOUR DJS PLAY?

Our experienced team of Djs hcan turn their hand to just about any request they're given. They've played coast to coast and north to south so they know and recognize the regional variances in what music 'works' and what doesn't 'work'. All tracks are 'clean' radio edits and requests are actively encouraged through the night.

### CAN WE HAVE OUR OWN DJ PARTICIPATE?

Of course. We're happy to work alongside any of your DJs who want to get involved. So much so that we've created 'The Takeover' package just to encourage that! Some of our clients have even run a 'Win A DJ Set' contest which have worked very well on a marketing level and have helped ensure participation and interest before the event has even taken place.

### CAN WE HAVE THE EVENT OUTSIDE?

Absolutely. Some of our most successful shows to date have been outdoors on sports fields, in parks, at festivals and even at sea in the middle of the Atlantic! Remember, there's no noise so this makes outdoor locations that were once not viable for entertainment suddenly viable Headphone Disco can't work in the rain though so we always ask that you have a 'rain venue' or covered/tented area on standby.

### WHAT LOCATIONS CAN WE HOST A HEADPHONE DISCO IN?

In short, any location! As long as there's electricity we can set up and perform our show anywhere. It doesn't need to be in a conventional 'venue' or ballroom it can be anywhere that you'd like to throw a party. The possibilities are endless! How about a field house? A parking lot? Or a gym? Or how about using a space that you've always thought would be great for a party but where there are noise restrictions? Get crazy and creative!

## VARIATIONS; ALTERNATIVE EVENTS

Our headphones can be used for all sorts of different entertainment applications; if you've got an idea then we want to hear about it!

 **"SILENT FIT CLUB"** An awesome blend of 'wellness' with 'dance party', this event sees us bring a yoga/fitness professional to your campus alongside our resident DJ. We program a full day of different wellness themed classes (yoga, zumba, cardio etc) that are all conducted via headphones. We round off the event with an amazing Headphone Disco dance party.

 **"TWISTED CINEMA"** Outdoor, indoor, the Twisted Cinema can be run anywhere... two movies broadcast on two huge screens simultaneously, audio is beamed to headphones with switchable quirky and hilarious commentary from our 'Movie Zoo' team.

 **"HEADPHONE COMEDY"** is another variation we've experimented with.

 **"BAND V BAND"** groundbreaking live music set-up as seen at Good People Good Times festival in Indiana.
